Hello Leslie,

As per our telephone conversation on Friday, I've put together a brief summary of the access agreement status for the additional buildings to be added to the July VI sampling.

- 2232 East River Road – residence is currently rented. We have made contact with the owner through one of the other site contacts and he has agreed to provide access on Thursday July 19 to install soil vapor probes
- 2317 East River Road – residence is currently vacant. Property appears to be owned by the owners of the business on site – Century Propane. Century Propane has not responded to repeated requests for access and, based on past efforts by the Respondents is unlikely to do so without EPA involvement
- 2347 East River Road – resident originally denied access; however, we asked one of the adjacent business owners to speak with her and she is currently reviewing the access agreement and will let us know by Thursday July 19.
- 2359 East River Road – Occupied by granddaughter of owner of 2347. Reviewing access agreement and will let us know by Thursday July 19.
- 2373 East River Road – Property access agreement is signed and building surveys completed. Probes to be installed on Thursday July 19.
- 2391 East River Road – Unoccupied but same owner as 2373. Property access agreement signed and building surveys completed. Probes to be installed on Thursday July 19.
- Village Park trailer park – we have access agreements to allow us to sample units 13 and 15 (crawl space samples)
- Vinney's Restaurant – Property access agreement signed. Probes to be installed Thursday July 19.

Please feel free to call me if you have any questions or would like additional details.

Regards, Adam
